ECOMP For National Guard Technician Employees

ECOMP

This training will provide employees with the steps necessary to submit OSHA-301 forms and CA-1/CA-2 forms using the Department of Labor application ECOMP.

ECOMP

- ECOMP is a Department of Labor application that will allow DOD to file OSHA-301, CA-1, CA-2, and CA-7 forms electronically.
- ECOMP will be replacing the current EDI method DOD uses to file claims electronically.
- This switch will affect employees, supervisors, injury comp specialists, and safety personnel.

ECOMP's Workflow

National Guard has elected to use the option to file OSHA-301 forms using ECOMP as a notice of workplace injury or illness.

End of 301 process.
OWCP creates Claim, issues 9-digit claim number, and provides OWCP Case Number to employee and employer

Benefits of using ECOMP

- Employee can file a claim from home and submit to their supervisor. They do not have to use a computer at work or sit with their supervisor in order to file a claim.
- Documents supporting the claim can be uploaded at the time the claim is entered by the employee. This means that crucial information will be seen by the Claims Examiner when the claim is submitted, speeding up adjudication of the claim.
- Employees can log into ECOMP and view and print copies of claim forms when necessary.

Benefits of using ECOMP

- Employees can check status of claim submission and will receive claim numbers when assigned by DOL.
- Claim numbers are received more quickly from DOL allowing medical providers to bill OWCP and thus reduce any problems when providers want to initially submit bills after treatment.

Alternate methods of filing

- If a claim cannot be filed by the employee using ECOMP, there are alternate methods of filing the claim with DOL.
  - The agency can elect to have agency personnel (Injury Compensation Specialist) file a claim on behalf of an employee. This will be an agency decision and will most likely be done on a case by case basis that is dependent upon specific circumstances.
  - Hard copy claim form can be processed through the agency and sent to DOL.

Employee Registration

- **Employees must first register and create an account in ECOMP in order to file a claim. During registration, the employee will select their Department/Agency/Duty Station & enter Supervisor E-mail address**.
- Employee uses the Internet at any computer to access the ECOMP URL www.ecomp.dol.gov
- They can then use this account whenever they file subsequent claims using a User ID and Password established when they register.

Employee Registration

- The application guides the employee through the process for ease of use.
- Passwords can be reset using security questions set up during registration so employees do not have to worry about forgotten passwords.
- Employees can use their home computer, if they so desire, to file the required forms.

Have you been hurt on the job?
If you are a Federal Employee or a Contractor and have sustained a work-related injury or illness, use ECOMP to report the incident to your supervisor.
If you are a Federal Employee you may also file a claim for benefits under the Federal Employees' Compensation Act (FECA). Depending upon your agency, start by filing OSHA's Form 301, then file a claim using either form CA-1 (for traumatic injury) or form CA-2 (for occupational disease). After you have received an official FECA case number, you may also file form CA-7 (Claim for Compensation).

FAQ
About Forms CA-1 and CA-2
Which form should I use?
Form CA-1 (Federal Employee's Notice of Traumatic Injury and Claim for Continuation of Pay/Compensation), is for use by Federal employees to claim benefits under the Federal Employees' Compensation Act for a medical condition resulting from an incident or activity occurring during one work shift.
Form CA-2 (Notice of Occupational Disease and Claim for Compensation), is for use by Federal employees to claim benefits under the Federal Employees' Compensation Act for a medical condition resulting from an incident or activity occurring over more than one work shift.
How do I file the form?
The process for filing a form involves completing several form sections made up of smaller form-filing steps. These individual steps can be viewed in the navigation bar on the left. Unless otherwise noted, all of the fields in the form must be completed.
If you filed an OSHA-301, the information you entered in that form will be used to automatically fill in matching fields on the FECA form, but you should edit any of the narrative responses as needed.
The form may be saved at any time, and completed later. Once the form has been submitted, it will be reviewed by the employee's supervisor and/or the Agency Reviewer before submission to OWCP (if appropriate).

FAQ
Select CA-1 or CA-2
There are two types of injury claims that may be filed: CA-1 or CA-2. Only one claim (either Form CA-1 or Form CA-2) may be filed based on a single incident. If your agency requires a Form OSHA-301 prior to filing a FECA claim, this means that only one FECA claim form may be filed per OSHA-301.
Select the appropriate form:
CA-1
For Traumatic Injury
CA-1 - Federal Employee's Notice of Traumatic Injury & Claim for Continuation of Pay/Compensation
Use this form if you have sustained a traumatic injury on the job. A traumatic injury is a condition of the body caused by a specific event or incident, or series of events or incidents, within a single workday or shift.
Examples of a traumatic injury include: a dog bite, a motor vehicle accident or a slip and fall.
CA-2
For Illness
CA-2 - Notice of Occupational Disease and Claim for Compensation
Use this form if you have sustained an occupational disease as a result of your job duties. An occupational disease or illness is a condition produced by the work environment over a period longer than a single workday or shift.
Examples of an occupational disease include: noise induced hearing loss, asbestos-related illness or orthopedic injuries due to repetitive motion.
